Functional cookie (type 2): external Recruiting App	Third Party	customer	8 hours	Haufe umantis: Internal ID of the user's company	
Functional cookie (type 2): external Recruiting App	Third Party	auth-token	na	Haufe umantis: In the auth-token cookie, user information is stored in a JSON data structure	
Functional cookie (type 2): external Recruiting App	Third Party	TrackingID	2 days	Haufe umantis: Used in the job board for referral programs.	

How to generally deactivate or remove cookies in the web browser:

[Internet Explorer / Edge](#)

[Mozilla Firefox](#)

[Safari](#)

Essential Cookies (type 1): These cookies are absolutely necessary for the functions of the websites. Without these cookies we would not be able to offer you our website in your language.

Functional cookies (type 2): These cookies facilitate the use and improve the functions of the websites. For example, we store your currency settings in function cookies.

Analytical Cookies (type 3): These cookies collect information about how you use our websites. This enables us to recognise which parts of our website are particularly popular and thus improve it for you.

Advertising / Tracking (type 4): These cookies collect information to provide interest-based advertisement.

Functional cookie (type 2): external Recruiting App	Third Party	cookieTest	Session	Haufe umantis: To determine whether the visitor has accepted the cookie consent box.

***Google Analytics**

This website uses in particular Google Analytics, a web analysis service of Google LLC. ("Google"). Google Analytics uses cookies which are stored on your computer, tablet or smartphone and which enable an analysis of your use of the website. These are cookies from Google itself (Google Analytics cookies). Engel & Völkers uses Google Analytics with the additional function offered by Google to make IP addresses anonymous: Here, the IP address of Google is usually already shortened within the EU and only in exceptional cases only in the USA and stored in shortened form. On behalf of Engel & Völkers, Google will use this information for the purpose of evaluating your use of the website, compiling reports on website activity and providing other services relating to website activity and internet usage, such as Google Analytics reports on performance in relation to demographic characteristics and interests, to Engel & Völkers. You can find out how and to what extent Google processes data [here](#). Google uses the data obtained via the Engel & Völkers website for any of its own purposes, such as, if applicable, for profile formation. It is also possible that Google may link your data with other data such as a possible Google account, the search history, personal accounts, usage data from other devices and all other data that Google has on you. The data obtained in this way may also be stored in the USA, where under certain circumstances state authorities may also have access to this data.
